Benin Fact Sheet

Country Overview

» Located in West Africa
» Benin spans 44,310 square mi\(^2\)
» Population: 12.1 million people
» 2020 Human Development Index Ranking: 158 of 189 countries\(^1\)

Scope of Eye Care Needs\(^2\)

» 0.40% of Benin’s population is blind (52,000), as compared to 0.19% in the United States
» 1.73% of the population has moderate to severe vision impairment or MSVI (218,373), as compared to 2.02% in the United States
» 0.12% of global blindness
» 0.07% of global MSVI

Nationwide Eye Care Response

Sub-Saharan Africa’s median Cataract Surgical Rate (CSR) is 497 — 28% of the global average and 6% of the average for high-income countries. Seva works to improve these rates through our hospital management systems and training support in Benin, focusing on improvement in the following Global Action Plan indicators for universal eye health.

» Benin’s CSR was 578 surgeries per million in 2015, as compared to the US CSR of 11,000
» 3.7 ophthalmologists per million people in Benin as of 2015 (US = 54.7 per million people)
» 0.4 optometrists per million people as of 2014 (5 total)
» 7 AOPs per million people in 2012 (64 in total)

Impact (FY 2020-2021)*

- **15,053** People receiving services
- **1** Doctor trained on MSICS
- **2,987** Cataract surgeries performed

* Numbers based on reports received.
Seva’s Approach in Benin

Seva partners with the Kilimanjaro Centre for Community Ophthalmology (KCCO) to reduce blindness in Benin. KCCO began a capacity building program with St. Andrew de Tinre Hospital in Parakou, Benin in 2017. KCCO provides training, assistance for outreach activities to low-income communities in Benin, and support for a growing number of patients to be seen at the hospital in Parakou.

Impact of COVID-19 in Benin

COVID-19 continues to have an impact on the country, particularly in major cities where COVID-19 has been concentrated to date. Cases have increased substantially in the third quarter of 2021. As part of its response to COVID-19, Seva worked with KCCO to provide funds for essential protective equipment for its partner hospital in Benin. Our partner noted that this support was particularly timely as most programs have been affected in a bad way by the third wave of COVID-19. Fewer than 1% of people have received a COVID-19 vaccination in Benin.
