Haiti Fact Sheet

Country Overview

» Located in the Caribbean
» Haiti spans 10,714 square miles
» Population: 11.4 million
» 2021-22 Human Development Index Ranking: 163 of 191

Scope of Eye Care Needs

» 0.39% of Haiti’s population is blind (49,000), as compared to 0.19% in the United States
» 2.04% of the population has moderate to severe vision impairment or MSVI (253,340), as compared to 2.02% in the United States
» 0.11% of global blindness
» 0.09% of global MSVI

Nationwide Eye Care Response

» Haiti’s Cataract Surgical Rate (CSR) was 542 surgeries per million in 2013, as compared to the US CSR of 11,000
» 5.4 ophthalmologists per million in 2015 (58 total)
» 0.6 optometrists per million people in 2020 (7 total)
» 10 allied ophthalmic personnel in 2013 (105 total)

Seva’s Approach in Haiti

With only 60 trained ophthalmologists in the entire country, high quality, affordable eye care for the entire country is desperately needed. Seva and Visualiza work with Clinic Specialisse located just outside the capital city of Port au Prince. Since 2013, they have trained de Castro’s ophthalmologists and hospital administrators, assisted with the design of their new clinic, installed and trained staff to use a hospital management system and trained staff to perform outreach activities to rural communities desperately in need of eye care with Seva’s support.

SPOTLIGHT ON PROMOTING EVIDENCE

As part of its mentorship process, Visualiza works with hospitals to ensure they have an electronic data management system to assess the work that they are doing to improve eye care delivery and patient care over time. Seva will work with Visualiza to set up this system with the Clinic Specialisse. The hospital can also use this data to assess if they are reaching their target demographic of patients, if there is a village or community that needs further eye health promotion, if quality outcomes are being reached, or if further follow up is required. With this information, the hospital is better equipped to provide quality services to communities in need.
